**Dear Dr Johannes Herrmann  
Unit Coordinator:**

I am a final year student following Bachelor of Science Computing, major in Software Engineering (2017-2019) SLIIT(along with Curtin University, Australia).

My capstone computing group project topic is Property Management System. My part is Utility bill management on it. Utility Bill Management System includes collecting, validating, adding, managing and visible utility bill information etc.

Utility bill management improves operational efficiency, can easily access utility bill data, avoiding risk of late bill payments by timely paying, reduce costs. Although amount of utility data increases, it generates more accurate utility bill processing.

I believe that my combination of experience, skills and positive attitude makes me to do this project very well. Thank you.

**Sincerely,**

**K.M.Wickramaarachchi**
